ABOUT THIS DOCUMENT

Carestream NDT is committed to providing distributors the marketing support and tools they need to increase sales. With this distributor marketing tool kit, you'll find all of the personalized elements you need to effectively promote the new HPX-DR High-Resolution and Compact detector including, logos and photography, e-blast campaigns, social media, website content and full-page ads. We want to help you energize your HPX-DR 2530 detector sales this year. And we're committed to providing all the tools you need for maximum success.

ABOUT THE HPX-DR 2530 HIGH-RESOLUTION AND COMPACT DETECTOR

The HPX-DR 2530 is a high-resolution, compact detector. It has a 98µm resolution for a higher level of defect detection and analysis. In addition, the detector addresses a unique challenge customer's may experience with DR technology – the capability to perform digital NDT inspections in small, confined spaces. In many cases, we've solved this problem with this smaller size (250 x 300mm) detector with a thin profile (14.7mm).

We're so confident in the design and reliability of our new durable detector that we're offering a **two-year warranty** – which is a unique option in the industry.

It's all about you and your customers.

Carestream approaches the NDT market using a consultative, solutions-based approach derived from listening to your customers' challenges and helping them increase productivity and profitability with the right combination of products.

We are committed to building supportive and interactive relationships with you and your end-users, using valuable insights to create better products and services.

**Carestream NDT and you.

Carestream NDT

LOGOS AND IMAGES

Using consistent, high-quality graphics and photography in your marketing materials reinforces your customers' perceptions about you and the products you sell.

We're supplying you with logos and images for use across all marketing materials. Images are supplied in high resolution for print, and in low resolution for use on the Web. **We have 100's of images and marketing materials specific to NDT, contact us for any special requests.**

WEBSITE CONTENT

Your website is often the first place end users will go to see if you have the products they need. Make sure it's looking good and offers the most comprehensive purchasing decision information.

A Word document is supplied with this kit that includes product details you can incorporate into your website.

We've also included product promotion artwork and layered Photoshop files for creating custom headers or artwork for the HPX-DR 2530 product page or category on your site.

Use the promotional images and content supplied to update your website.

SELL SHEET

When we work together to promote products, you stand to gain more sales. Be sure to use these materials to create more awareness among your customers.

The sell sheet PDF provided should be added to your website as a download. You can also order printed sales aids through your sales representative.

✓ Post the PDF file provided on your website.

CarestreamNDT HPX-DR 2530 DR Detector

HI-RESOLUTION AND COMPACT DR

The HPX-DR 2530 is the latest addition to the Carestream NDT DR family of products. See more with the 98 µm resolution for optimal image defect visibility. And, do more imaging in confined areas or between objects, the new HPX-DR 2530 fits in tight spaces with its compact size.

All of Carestream NDT CR and DR products run on our all-in-one INDUSTREX software, so you don't need to purchase costly add-on modules to utilize the benefits of both.

BENEFITS AT A GLANCE

- Improved defect detection with 98 µm resolution
- Compact size (250 x 300mm) and thin profile (14.7mm) for imaging flexibility
- Tungsten shielding for maximum electronics protection and high exposure applications
- Protective, weatherproof enclosure
- Close-to-edge imaging capability
- Robust wireless connectivity
- Lithium-ion batteries with battery 'hot-swap' to keep the detector running during battery change

COMES WITH A 2-YEAR WARRANTY!

- We're so confident in the design and reliability of our new durable detector that we're offering a two-year warranty.

SPECIFICATIONS

MECHANICAL	WIRELESS SYSTEM
Size (mm)	Network Type
Active area 250 x 300	Isolated Private Wireless LAN (IPWLAN)
Dimensions 282 x 332 x 14.7	Wireless Protocol
Weight	802.11 A, G, N, AC
2.1kg (4.6 lbs)	ENVIRONMENTAL
Housing Material	Shock
Aluminum	High shock tolerance
Load Limit	Temperature Range (°C)
Distributed evenly over detector area: 170.1 kg (375 lb.)	-20 to +40
Corrosion Screen	Ambient Storage (-23 to +40)
GOS DR2 FINE, DR2 PLUS	Shipping (-23 to +40)
Pixel Pitch (µm)	Relative Humidity
98	Operating 10 - 80%
Scan Method	Non-Condensing
Progressive	Storage 10 - 80%
A/D Conversion (bits)	Ingress Protection
16	IP57
Image Resolution (Optimized)	
5.1 (FINE) 3.4 (PLUS)	

HIGH RESOLUTION OUTPUT IN THE LAB OR IN THE FIELD

ACCESSORIES FOR EVEN MORE STRENGTH AND LONGEVITY

Protective cover for lab use increases detector load limit up to 340 kg (750 lbs.).

Mount kit with pipe clamps to reduce stress on the detector for pipeline imaging.

E-BLAST TEMPLATE & CONTENT

Sending a series of e-blasts to your customers in a predetermined time-frame will help to keep your company top-of-mind when they need products.

As part of the Carestream NDT 2020 advertising schedule, we're deploying a series of e-blasts to NDT professionals that have opted-in to receive our messages.

We're providing you with the assets used in our e-blasts to use with your name and contact information.

E-blasts are easy! There are a number of on-line services that you can create and populate e-blasts using a simple graphical interface! Or hire an agency!

HOW A TYPICAL E-BLAST WORKS

Create a landing page on your website linked from the e-blast and encourage them to provide their info for a representative to contact them for a demo.

Send an e-blast teasing this crucial new improvement in DR technology **and include a link on it to the website landing page.**

Act on the results:

- Contact the leads that submitted forms.
- Write a tailored personal follow-up email within 3 days to the people that opened the e-mail but did not go to the landing page.

SOCIAL MEDIA SUPPORT

Most of your target audience is using social media to find industry-related news and education. Be proactive and find buyers where they prefer to hang out, rather than hoping they somehow find you.

Today it's essential to integrate social media into your marketing activities. We've created some social media posts and artwork – including a promotional video – for you to use in your LinkedIn, Facebook, Instagram accounts.
